Dynamic Package Engine

Dynamic Packaging is of the Top Selling USP of White Label

It is single destination Dynamic Search

It empowers the Agent/Customer to build Dynamic Package in One Click from more than 100 Destination Worldwide

The Agent can set Multiple Preferences for Multiple Packages at a time

Dynamic Package can be made with combinations of Hotel Tours and Meals

It supports Per person pricing and Real time itinerary Generation

To conclude it is One Stop Shop for Package Needs

Quotation Module

Quotation Module is Multiple Destination Dynamic Search

The agent can create multiple quote options with different hotels, activities, meals at the same time.

The quotation can be saved and edited later as per the agents convenience the agent has the option to add markup on the quote

The agent can download the PDF file and send to their customers with the itinerary and pricing.

The Agent can Block Rate and Availability till cancellation deadline, if the booking is not Vouchered before the date the booking will be Auto released

Admin Control

Admin Dashboard is fully equipped with the latest tools to streamline your business

Affiliation Management

Through Affiliation Master control you can easily set your own content i.e. About us, Mission, Vision, CEO Message, Privacy Policy, FAQ'S and Contact us Dynamically

They are fully customizable and even allow you to easily integrate your own company logo, helpline numbers, social media links and branding.

Rate Plan Management

Through Rate Plan Master control you can create Multiple Tariffsheet, Assign Tariffsheet to multiple Agents, set Service wise Markup, with Advance Markup feature you can set product wise markup for individual tour or complete set of tour category

Banner Management

Through Banner management you can set the Banner product wise or image wise , You have the flexibility to select the products as per service wise, the Customer/Agents can promote Top Selling products through Banners

Combo Setup

The Customer/Agent can create multiple combos to suite the business requirement just add tours from the tour list and create combos or trio tours, its that simple

You also have the scope to give discount on combos to attract customer
